# Is Your Organization's Data Accessible and Secure?

Managing your own security is **complex**, **expensive**, and **burdensome**.

43%

Percentage of all data breaches that involve small and medium businesses[1]

65%

Percentage that organizations would need to grow their security workforce to effectively defend critical assets[2]

Cloud is a more **efficient** and **affordable** way to protect your business.

43.4%

fewer monthly security incidents[3]

69%

reduction in unplanned downtime[3]

🔒 **Data protection**

◎ **Automatically detect threats**

✓ **Enable compliance**

🛡 **Enforce network security**

Mission Cloud Secure is a SaaS application that delivers 24/7 security monitoring and incident response through a powerful combination of CrowdStrike's world-class security platform and Mission's AWS expertise. Protect your cloud resources, endpoints, and credentials while maintaining compliance and operational excellence. **Start with a Security Healthcheck** ⟶
