

Data & Analytics Platform for SMBs

A fully managed unified data & analytics platform on AWS for a significantly reduced cost compared to a traditional implementation.

Building a data analytics platform that unlocks the power of your data has always been complex, time-intensive, and expensive. All that changes with Amorphic, a 100% AWS-native solution that leverages AWS core services to streamline development and management of data lakes, data warehouses, and AI/ML/BI implementations. With Amorphic, you can both dramatically reduce both your start-up timeline and costs (by 80% or more) and your ongoing maintenance and development burdens, allowing you to invest more in driving insight and innovation.

Amorphic Platform

The Mission Way vs. Traditional Partners

	Mission's Innovative Approach "Buy"	Traditional Partners "Build"
Proof of Concept	Many Amorphic users go straight to production or connect a subset of data sources as a proof-of-concept phase that is simply expanded into the production deployment.	\$50,000+
Timing for PoC	0-2 weeks. Standalone PoCs are not required.	4-6 weeks
Typical Production Implementation Costs	\$20-\$80K	\$250K+
Platform Pricing Structure	Pay-As-You-Go	7 figure annual contract

Benefits of Amorphic with Mission

Save upfront costs

Decrease initial production implementation costs compared to a traditional build.

Reduce development time

Get to production faster without lengthy POC cycles.

Future proof your analytics

Generate actionable insights and build intelligent applications by leveraging the integrated Amazon AI services in the Amorphic platform.

Pay-as-you-go

Pay for the platform only to the extent that you are using it, leveraging consumption-based utility pricing.

Next Steps

With Amorphic, you can now get started leveraging AWS-native data analytics services with Mission. To learn more, contact your Mission Account Executive, call 855-647-7466, email sales@missioncloud.com.

About Mission

We are an AWS Partner Network (APN) Premier Consulting Partner, with deep know-how in launching and leveraging the power of the cloud. Our mission is to help businesses architect, migrate, manage and optimize their cloud environments. Mission has a Business Associate Agreement (BAA) in place with Amazon.
