

Helping Healthcare and Life Science Companies Win with AWS

OVERVIEW

Organizations across the healthcare, life sciences, and genomics industries face unique challenges as they move to the cloud, which is why they should work with a service provider like Mission that is familiar with the nuances in these respective fields.

UP TO ONE HOUR OF CERTIFIED AWS EXPERTISE FOR FREE

With our Solutions Architect On Demand (SAOD) program, you get one full hour to discuss migration, cost optimization, cloud security, disaster recovery or DevOps for your business.

MISSION HELPS CUSTOMERS:

- Architect and build compliant cloud infrastructure for HIPAA/HITECH & GxP
- Support customers as they work to achieve HITRUST certification and GxP audit compliance
- Innovate more quickly and deliver better and faster outcomes for patients
- Meet and maintain compliance requirements around Logging, Auditing, Backup, Disaster Recovery

CUSTOMER REFERENCES

“Mission impresses us with their cloud expertise — they are a great sounding board for any questions we have and always bring us up-to-speed quickly on any new AWS features. With their help, we have practically created a ‘push-button’ environment in the cloud.”

- Scott McKay, CTO, ZappRx
