

## SERVICES

# Professional Services for AWS

### AWS EXPERTISE & GUIDANCE

In spite of the promises of scalable performance and reduced costs, many businesses have been slow to move to the public cloud or have struggled to take full advantage of the cloud's power, constrained by their lack of in-house expertise, resources, and time. Meanwhile, public cloud providers are innovating faster every day, raising the challenge for technology teams to keep their company's infrastructure aligned with best practices and the latest capabilities.

No matter where you are in your adoption of cloud technologies, Mission's team of Amazon Web Services (AWS) Certified cloud experts can help you define and execute a cloud technology plan to drive the growth of your business. We can help you identify the best tools for your needs and design and implement robust, scalable cloud-native solutions that deliver on the promise of speed, performance, reliability, and cost-efficiency.

### THE BENEFITS

#### Grow Your Cloud Strategically.

We can build your company's Strategic Technology Roadmap and help you align your infrastructure with your needs.

#### Leverage AWS Experts.

Get out from under obsolete or inefficient technologies and re-engineer your infrastructure using the latest tools.

#### Get More Out of the Cloud.

We can help you identify ways to fully leverage advanced technologies and build a more resilient, scalable cloud.

#### Unleash Your Team.

With access to AWS experts and robust, scalable technologies, your team can drive more rapid innovation.

### ABOUT MISSION

We are an AWS Partner Network (APN) Premier Consulting Partner and AWS Managed Service Provider (MSP) with deep know-how in launching and leveraging the power of the cloud. We believe that cloud technology is the greatest business transformation tool, and our mission is to help you harness that power to transform your business and to make your company's mission a reality.
