

SERVICES

Managed Cloud Services for AWS

EXPERT AWS CLOUD MANAGEMENT

Every business is under ever-increasing pressure to innovate. Yet far too often, day-to-day operational tasks and interruptions get in the way. Rather than allocating resources to value-generating projects and initiatives, too many businesses have some of their smartest, most capable technical resources babysitting infrastructure, responding to alerts, and managing backups.

Mission Managed Cloud ends those interruptions and gets your team back to work on building real value for your organization. We provide first-class operational management of your cloud infrastructure utilizing best-practices in Amazon Web Services (AWS) account configuration, 24/7/365 site and instance monitoring, expert support, and alert remediation. We'll keep your infrastructure running smoothly, so you can stay focused on your real work.

THE BENEFITS

Best-Practices Account Setup.

We'll configure your AWS accounts using proven best-practices for security, networking, and compliance.

Hands-Free Maintenance.

OS updates, security patches, and routine maintenance are all handled with care by our AWS-certified engineering team.

24/7/365 Monitoring.

We're monitoring your site and instances round the clock and ready to respond promptly to any alerts.

Continuous Consultation.

We'll help you keep your infrastructure optimized and aligned with your changing business needs.

ABOUT MISSION

We are an AWS Partner Network (APN) Advanced Consulting Partner and AWS Managed Service Provider (MSP) with deep know-how in launching and leveraging the power of the cloud. We believe that cloud technology is the greatest business transformation tool, and our mission is to help you harness that power to transform your business and to make your company's mission a reality.
