

SERVICES

Media & Entertainment Managed Service Provider Migration and Management for AWS Media Services

DREAMWORKS

- Continuous compliance for security
- Deployed ELK Stack solution to collect and manage log data
- Used AWS CloudFormation to deploy “Trollify Yourself” application
- 24x7 Managed Services—proactively monitoring movie webpages

RED DIGITAL CINEMA

- Automated app deployments using a git + Chef pipeline (CI/CD)
- Set up 3-tier architecture: Nginx, Ruby on Rails, and MongoDB
- Deployed ELK Stack solution to collect and manage log data
- 24x7 Managed Services—proactively monitoring Red’s website

OSN

- Developed a cloud OTT strategy
- Created VOD workflow using AWS Elemental MediaConvert
- Migrating MyOSN systems to AWS
- 24x7 Managed Services—proactively monitoring OSN’s payment systems

“In the high-profile entertainment industry, maintaining compliance for security purposes is critical. We were very impressed by the level of flexibility Mission was able to bring to the solution in such a short amount of time.”

-Justin Decker, Director of Platform Services, Dreamworks Animation
